

为满足市场需求，先锐凭借其精湛的研发技术，不断满足客户在汽车内外饰件系统的研发，先锐研发的专用于汽车内外饰产品的EMS系统简化了客户在设计、加工、装配、维护等，为客户提高了市场竞争力。

To meet the customers' satisfaction for the new technology research on the automobile industry, Sino continuously cooperates with the customers for the hot runner system research and developing. EMS system, is designed for the automotive interior and exterior plastic parts, it simplifies the mold design, machining, assembly and maintenance. It offers the competitiveness for the customers on the automobile industry.

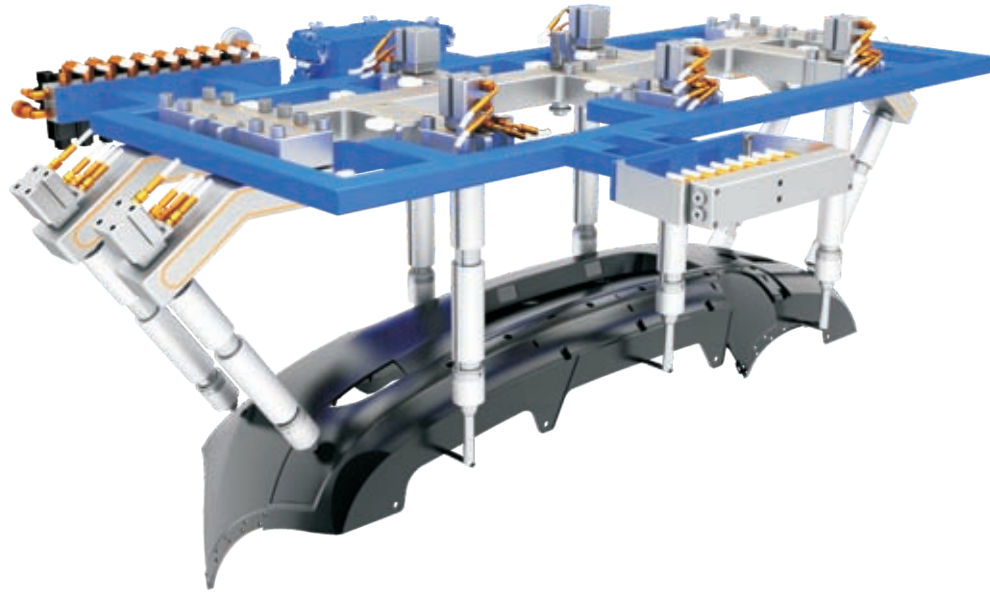

EMS

- 螺牙式热嘴设计
- 接头式备用加热器
- Screw-in type nozzle design
- Plug in design for the spare heater without disassembly

Dash Board

Material:PP
Weight:2.9KG
Thickness:3.0mm
Nozzle type:EMS 45 VL

Dash Board

Material:PP
Weight:3.5KG
Thickness:3.0mm
Nozzle type:EMS 45 VL

Lamp Cover

Material:PMMA
Weight:300G
Thickness:2.6mm
Nozzle type:PRM 35 VL&VV

Grille

Material: PP
Weight: 450G
Thickness: 2.0mm
Nozzle type: PRM 45 VV

Door panel

Material: PP
Weight: 1500G
Thickness: 2.2mm
Nozzle type: EMS 45 VE

Wheel Cover

Material:PP
Weight:560G
Thickness:1.8mm
Nozzle type:PRM 45VL&VV
