

THCG Heater

- 铜套式加热器
- 发热丝缠绕于铜管上
- 热分布均匀，升温迅速
- Heater with the copper sleeve
- The heater was inserted on the copper sleeve
- Evenly heat distribution, rapid heating up

TUBE Heater

- 弹簧式加热器, 长度可按需制作
- 升温迅速, 维护方便
- 独立及备用型多种规格可选
- The coil spring type heater, the length can be customized
- Quickly heating up, and easy maintenance
- Interchangeable spare parts design

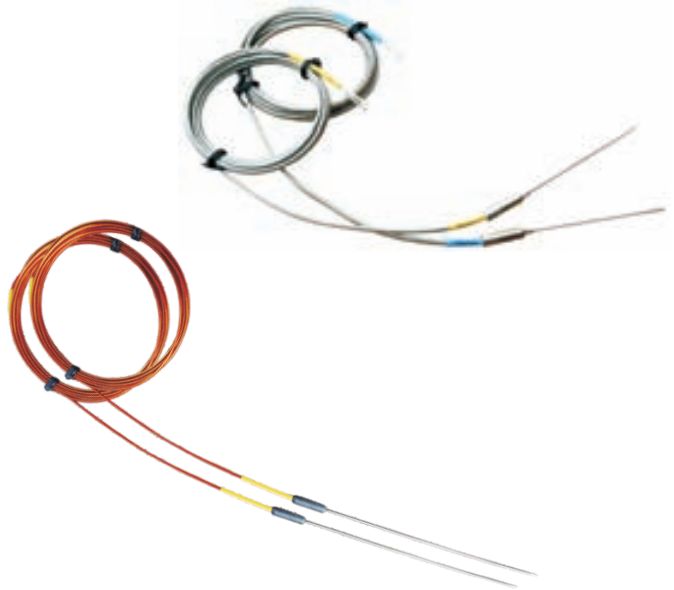

THMC Heater

- 多段式加热设计
- 热阻整体温度更平稳、均匀
- 超长设计
- Multi-stage heater
- The high performance of the heat balance
- The heater can be made as longer as the requested

Thermocouple
感温线

针式感温线

- 探针式结构
- 温度控制精度高
- K\J型可选
- 稳定性高
- Probe design
- High precision scan the temperature
- K\J type options
- High stability

T型感温线

- 探针式结构
- 控温精度高
- 稳定性好
- Probe design
- High precision scan the temperature
- Superior stability
